Are you a practical person, fascinated by how things work and are put together? Want to learn why we build things the way we do and the best materials to use?

It is estimated that the UK will need 300,000 homes a year by the mid-2020s. That means we'll need plenty of skilled and knowledgeable individuals to uphold the already booming construction industry.

Whether you're passionate about designing energy-efficient homes or interested in exploring sustainable building materials for future homes, the BTEC Nationals in Construction (RQF) feature brand new units, designed by MOBIE and George Clarke, to help students learn the key skills associated with the building industry.

The construction industry is packed with highly rewarding, modern careers. Find out about the different pathways available to you.

What kind of career can I go into?

Here are a few ideas to get you started:

- Architect
- Quantity Surveyor
- Site Engineer
- Building Services Engineer
- Building Surveyor
- Construction Manager

Units at a glance

If you choose to study a BTEC in Construction, you could study units such as*:
