

BTEC WORKS FOR IT AND COMPUTING

Do you enjoy learning about technology and how it works? Skills shortages in key areas of the digital economy mean there's a wide variety of IT careers available for people with the right qualifications and experience.

Almost half of businesses (48%) are recruiting for roles that require hard data skills, proving a career in IT will always be needed.*

BTEC courses provide a solid grounding in all aspects of IT, from building computer systems and programming through to digital animation and web development. You'll be putting theory into practice with practical tasks and tests.

What kind of career can I go into?

You will experience a challenging and rewarding career in the ever-changing world of technology. Here's a taste of the different careers a BTEC in the sector could lead to:

- App development
- Cyber security
- Data analysis
- Hardware Engineer
- IT consultancy
- Programming
- Game development
- Software Engineer
